PROFESSIONAL SUMMARY

QA Lead & Technology Governance Professional with 12+ years of experience delivering quality-critical systems in **fintech, cloud, and enterprise domains**. Proven track record in **leading cross-functional teams**, managing senior stakeholder relationships, and driving compliance-aligned technology programs. Expertise in ETL pipeline governance, data integrity, risk-based testing, and regulatory frameworks (GDPR). PMP-certified with deep AWS and automation capabilities — bringing both technical rigor and business acumen to finance operations.

CORE COMPETENCIES

Leadership & Governance: Team Leadership, Stakeholder Management, Cross-functional Collaboration, Agile Program Delivery, Risk-Based Quality Assurance, Vendor Management, PMP
Finance & Compliance: Fintech QA (Loan Management Systems), ETL Data Validation, Regulatory Compliance (GDPR), Data Mapping & Integrity, Financial Reporting Systems, Audit Readiness
Technology: AWS (S3, IAM, EC2), Python/JavaScript, SQL, Selenium, REST API Testing, CI/CD (Jenkins, Docker, Kubernetes), BDD, Robot Framework

PROFESSIONAL EXPERIENCE

Cybage Software Oct 2025 – Present
QA Analyst Lead Pune, Maharashtra, India
– Spearheading QA governance across enterprise programs — owning quality strategy, stakeholder reporting, risk dashboards, and release sign-off decisions aligned to business objectives.
– Leading QA Strategy and Automation across enterprise payment products, defining ensuring zero-defect delivery in CI-CD Pipelines. i.e. Fusion Global Pay Plus, Cross border payments, Fusion Payments to GO

Larsen & Toubro May 2023 – March 2025
Quality Specialist Bengaluru, Karnataka, India
– Led QA for a large-scale **AWS cloud migration program** (BACIS), coordinating across architecture, operations, and business stakeholder groups; governed ETL pipelines ensuring financial data fidelity and compliance.
– Primary QA liaison to senior leadership — produced structured test reports, risk dashboards, and governance sign-off documentation for program steering committees.

Aziro (Msys Technologies) Nov 2021 – Apr 2023
Lead QA Engineer Pune, Maharashtra, India
– Led validation of AWS S3 cloud storage (multi-node HA) and HPE Nimble Storage, managing test planning, stakeholder communication, and delivery end-to-end milestones across distributed vendor teams.

TestingXperts Jul 2020 – Oct 2021
Senior Test Engineer Chandigarh, India
– Managed multi-vendor API testing for **fintech data platforms** — led regression cycles, resolved data-mapping discrepancies, validated end-to-end ETL financial pipelines via SQL, and reported quality metrics to client stakeholders.

Tata 1mg Nov 2019 – Jul 2020
Senior Software Engineer (QA) Gurugram, India
– Partnered with product and business owners on care-plan feature delivery; automated end-to-end order flows (Robot Framework) supporting revenue-critical user journeys across multiple platforms.

Bebo Technologies Pvt Ltd Aug 2018 – Oct 2019
Senior Software Engineer (QA) Chandigarh, India
– Owned end-to-end QA for a **loan management system** — designed automated regression suites (Selenium, Pytest), delivered weekly defect/risk reports to operations stakeholders, and re-architected the test framework (Page Object Model), reducing overhead by ~40%.

Calsoft Inc Oct 2015 – Jan 2018
Senior Automation Engineer Pune, Maharashtra, India
– Built Python-based data recovery framework (Pure Storage API); led vendor coordination and automated DELL EMC hybrid cloud deployments (VMware APIs, vCenter), standardizing delivery across infrastructure teams.

EDUCATION

Chitkara University, Punjab Jul 2011 – Jun 2015
B.E. (B.Tech.) — Computer Science & Engineering

CERTIFICATIONS & RECOGNITION

- **PMP** — Google Authorized Project Management
- AWS Certified Cloud Practitioner
- Legal & Compliance Awareness (GDPR)
- DevOps MasterClass: Git, Docker, Kubernetes & Jenkins
- Machine learning, Data Science Generative AI.
- Certificate of Appreciation — Performance Excellence
